## Activity

Play a game of Zip, Zap, Zoom!

How to Play:

One person begins by looking in a direction and saying 'zip' the next person then says zip and it continues round in a circle.

The next command is zap. This changes the direction of the zip and so it continues back round in the opposite direction.

Finally Zoom . Zoom travels across the circle. The person who says zoom points to who they want to receive it. The receiver then looks in the direction they wish to continue play and the zip moves on.

## Riddle for today's sound

A lady has to get a fox, a chicken,  
and a sack of corn across a river.

She has a rowboat, and it can only  
carry her and one other thing.

If the fox and the chicken are left  
together, the fox will eat the chicken.

If the chicken and the corn are left  
together, the chicken will eat the corn.

How does the lady do it?

## Activity: Make an X-Ray

You will need:

Black paper or card  
White chalk

Method:

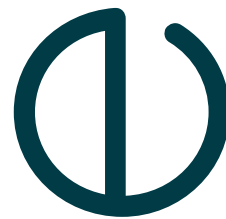

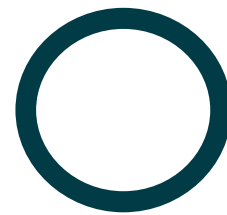

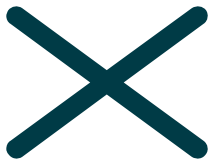

Draw around your hand on black paper with chalk  
and create your own x-rays with your grownup,  
imagining where the bones might be.

Riddle answer: The lady and the chicken cross the river, (the fox and corn are safe together), she leaves the chicken on the other side and goes back across. The lady then takes the fox across the river, and since she can't leave the fox and chicken together, she brings the chicken back. Again, since the chicken and corn can't be left together, she leaves the chicken and she takes the corn across and leaves it with the fox. She then returns to pick up the chicken and heads across the river one last time.
